

olive kernel extract.

44. A method of protecting pelvic tissues from the inflammatory components of endometriosis, comprising the administration of anti-inflammatory amounts of the composition of claim 40.

45. A method of protecting pelvic tissues from the inflammatory components of endometriosis, comprising the administration of anti-inflammatory amounts of the composition of claim 43.

Remarks

It is the applicant's intent to limit the prosecution of this continuation-in-part/divisional patent application to claims for compositions and methods for protecting against the inflammatory components of pelvic endometriosis. All elements of these claims are supported in the specification.

To accentuate this limitation, the title of this application is also being amended, as recited above.

03/30/2004

Respectfully submitted,

Dr. Melvin Blecher
